Yamaha Motor Europe N.V. Facilities & GA Update

September 2025

POLICIES & JIRA

Our Facilities & General Affairs policies are available on [Sharepoint](#) and [Confluence](#). The policies are made to help you find more information about our services and standards. In case you have questions / requests / complaints, please create a ticket via the [Facility Jira platform](#).

PILOT ACCOUSTIC PANELS

At the beginning of August we installed 18 acoustic panels on the left side of the IS Division. We would like to hear your feedback about these panels through [this questionnaire](#) before September 28. Also if you don't work at the IS Division where the panels were installed, we would still like to hear your opinion. After we have the results we can summarize these and discuss about possible further steps.

The Phone and meeting booths have been well received, thank you for your feedback and we are currently exploring the possibilities. We will keep you informed.

UPCOMING EVENTS & HELP NEEDED FOR SINTERKLAAS PARTY

The dates for the upcoming After Work Drinks in 2025 are:

- Wednesday September 24
- Thursday November 27 ('Pepernoten borrel')

The Sinterklaas party will be held on Wednesday November 26 in the Three Forks and the invitation has been sent. To make this event even more unforgettable for our colleagues & families, we are looking for volunteers to play 'Piet'.

If you'd like to be a Piet, please clear your schedule between 2:00 PM and 5:45 PM. This will give you time to change and enjoy drinks and snacks together with other Piets & Sinterklaas afterwards. If you are interested, please send an e-mail to Sinterklaas@yamaha-motor.nl and we will give you all the details.

AFTER SUMMER CLEAN-UP

In the upcoming weeks we will organize an 'After Summer clean-up' for the offices; the opportunity to check cabinets/drawers and throw away items you don't need.

We want to minimize the number of cabinets on the floors. Therefore, please create a [Jira ticket](#) as soon as a cabinet is not in use and can be removed.

The containers will be placed on Friday the 26th of September and removed on the 10th of October. We will send out an e-mail with all details next week.

September 2025

RESTAURANT & BANQUETING

We still notice a lot of last-minute catering requests. Please be informed all banqueting (incl. lunch vouchers) must be done via [Jira](#) at **least 3 days in advance** before 14:00.

For groups **larger than 20 persons, please order 2 weeks before** the event date.

If you want to increase the number of guests, you must request this at least 1 week in advance. This has to do with purchasing. A decrease in the number of people can be requested 48 hours before the meeting.

Already placed orders can be cancelled free of charge up to 24 hours prior to delivery.

In Q2 Vermaat sent out a questionnaire, please find below a summary of the results:

Yamaha Motor Europe N.V. Facilities & GA Update

September 2025

VARIOUS PROJECTS

For your safety, we have recently updated and installed new evacuation maps in all three buildings. These maps clearly show the nearest emergency exits, fire extinguishers and assembly point.

Please take a moment to review the map in your area so you are familiar with the quickest and safest route out of the building in case of an emergency.

All the outside signing (white boards) on the premises will be replaced in the next months.

On the last 2 gates of the Head Office / Service Center parking, motors have been installed.

Both gates will also get a card reader so they can be opened from the outside during office hours. In addition magnetic sensors have been placed near all gates, this includes the main gate and in the pavement so a gate can be opened by simply driving up to a closed gate.

Both the magnetic sensors and the card reader are not fully functional yet as further adjustments to different systems are needed, these will be made in the coming months and we will inform you once ready.

NB. The gates are remote controlled; do not drive through if the orange flashing light is on.

The replacement of all the lighting to LED at the Amsterdam WHS is going faster as expected and will most likely be ready by the end of this month instead of November.

With this project, we will take another step towards achieving our sustainability goals. Annual consumption approx. 475,000 kWh for lighting. Expected annual consumption after replacement approx. 48,000 kWh.

The first results were already visible in the energy invoice from last month.
